

ABOUT 67 MILLION TO BE RAISED—

Growers Plan to Increase Turkey Flocks

Turkey growers plan to increase turkey numbers by 6 percent this year, the Crop Reporting Board reported Jan. 13. If growers carry out their intentions, the number of turkeys raised will be about 67 million.

compared with 63 million in 1955. All parts of the country plan increases ranging from 3 percent in the North Atlantic to 8 percent in the South Central and the West.

HEAVY BREED growers intend to raise 35,420,000 Bronze and other heavy breed turkeys this year—14 percent more than last year. All parts of the country plan increases in heavy breed turkeys varying from 7 percent in the North Atlantic to 38 percent in the South Atlantic states.

Higher prices received for 1955 heavy breed turkeys and a more favorable turkey feed-price relationship than a year earlier are the reasons given by growers for the expected increase in heavy breed production this year.

LIGHT BREED growers plan to raise 31,800,000 Bell and other light breed birds—10 percent less than in 1955. Decreases are planned in all parts of the country except the South Central, where an increase of 5 percent is expected.

The number of turkeys actually raised may vary somewhat from January 1 intentions, the difference depending on the prices for feed, supply and prices of hatching eggs and poults and the sale of turkeys remaining in grower's hands. In 1955, growers raised 4 percent fewer turkeys, about the same as intended on Jan. 1 because turkey prices remained below a year earlier during the growing season and the feed-price relationship was less favorable.

The number of turkeys raised in 1954 was 2 percent larger than Jan. 1 intentions, because turkey and feed prices remained close to the profitable level of a year earlier throughout the main hatching season. The turkey crop in 1953 was the same as intended Jan. 1 because turkey and feed prices remained fairly steady throughout the hatching season. Number of turkeys raised in 1952 was about 2 percent larger than intended Jan. 1 despite declining prices during the 1952 hatching season. Growers increased their 1952 turkey production because there was an abundance of inexpensive poults throughout a fairly long hatching season and credit was not a limiting factor.

Ironing over button, zippers, and hooks is not only hard on the fastener, but also scratches the plate of the iron.

FARM LOANS
Don't get burdened with heavy short-term debts. If you need money for any agricultural purpose, let us give you a helping hand with an easy-to-pay long-term land bank loan on your farm. Only 4 percent interest, and as long as you need to pay.

Farmers Can Now Get New Shed Plan

AUBURN—A farm building that's adaptable for many uses has been designed by API Extension Station engineers. The plan is now available to farmers through their county agents, said W. T. Cox of the API Extension Service this week in announcing its completion. He explained that the pole-type buildings, basically a low-cost machinery shed, can be turned into a poultry house or other animal shelter, grain storage building, or farm shop with only minor alterations.

Cox, who is Extension farm buildings specialist, said attractive features of the plan are that the shed can be made mostly of home-grown materials, is functional and simple to build and has a reasonable life expectancy. He commented that the building's low cost depends in part on the roof, which is designed for greatest economy possible under Alabama conditions. Actually, Cox said, the materials for the structure can be purchased for less than 50 cents per square foot, if home-produced materials are used, the cost is even less.

Put up in units so that it can be as large as desired, the shed has a framing of treated poles and rough-cut lumber. Roofing is preferably metal. Commenting that two of these sheds have been used by experiment station units for the past 18 months, Cox said thousands of such buildings are needed on Alabama farms. He pointed out that increased trade-in value of machinery which has been protected from weather will more than pay cost of the shed.

FARM BRIEFS

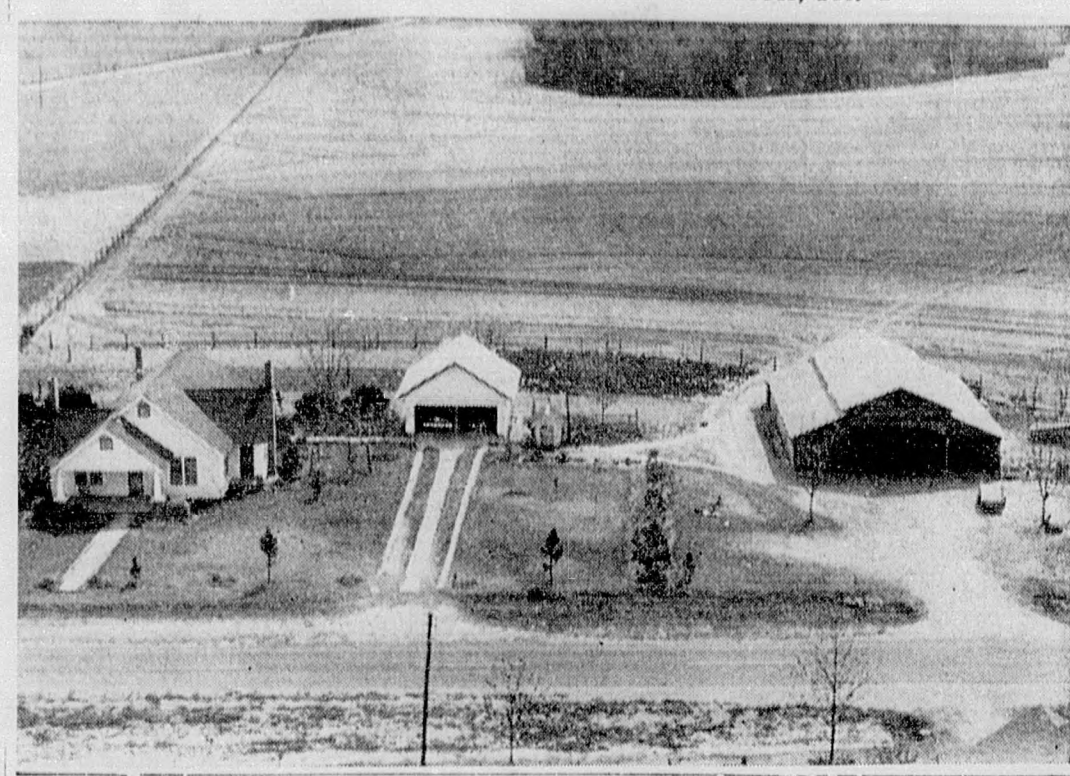

Edible by-products from 100 pounds of live hog average seven or eight pounds, according to the American Meat Institute. Alabama farmers expect to increase their 1956 spring pig crop by 10 percent, whereas the national crop will probably go down about two percent. A farm worker produces nearly twice as much today as he did 15 years ago.

Spring grazing time is just ahead, so it's not a bit too soon for livestockmen to plan just how they can best use available grazings.

Pigs of hogging-off weight need at least 12 or 14 percent good quality protein in their rations.

Stalk destruction is a must in North Alabama counties during the early part of the year. Corn cobs and other crop pests become active again. Mastitis in dairy cattle low.

W. Y. "Bud" Nobles Farm-Kinston, Rt. 1

POSSIBILITIES NEED CHECKING—

Farmers Social Security

The months immediately ahead are of special significance to self-employed farmers, ranchers and all others who work for themselves in some kind of agricultural enterprise. It is possible for them to become insured under the social security law after they have had credit for net earnings of at least \$400 in both calendar years 1955 and 1956. This could be as early as April 1956.

Older farmers—those 65 or over, and those who will have reached 65 at that time—can retire after March and start getting monthly old-age insurance payments if they meet the requirements for earning, as stated above. Other farmers, regardless of age, will acquire family protection under social security on the first of April providing they meet the same earning requirement. If they should die at that time their dependents would become entitled to monthly survivors insurance benefits.

It is well to bear in mind that becoming insured does not mean that a person will remain insured. Those under age 65 and alive after March 1956 will need additional work to retain an insured status. I want to point out also that being insured has nothing to do with the amount of benefit payments. Payments in these patches.

The Extension fish and wildlife specialist explained that a one-eighth-acre patch of either bi-color or partridge peas ought to be planned for every 15 to 25 acres for maximum soil conservation. He said plantings should be made in late March or April. County agents have instructions for seeding the crops.

Incidentally, the specialist added that his own luck has been extremely good this season.

Growth of Garden Aided by Fertilizer
AUBURN—Fertilizers applied to field crops bring mighty high returns, but those put on home gardens are frequently even more valuable.

Telling how garden crops that should be planted in Alabama during the next couple of months should be fertilized for best results, API Extension Horticulturist John Bayby explained that these plants ought to get their food in three "helpings."

The first application made when the seedbed is prepared and the furrows plowed out calls for two quarts of a complete fertilizer for each 100 feet of row. An equal amount of fertilizer should be put on as a side-dressing after the plants are up to a good stand. Then about three weeks later, the garden ought to get its third serving—a side-dressing of one pint of nitrate of soda per 100 feet of row.

Shortening Helps Keep Lard Better
Home-rendered lard will keep fresh and sweet twice as long when it's mixed with a little vegetable shortening.

So says Miss Lavada Curtis, API Extension food preservation specialist. Reporting that many farm families have found this means of preserving lard very satisfactory, she recommended the plan for folks who are now butchering hogs.

Miss Curtis explained that two or three pounds of hydrogenated shortening are needed for each 50 pounds of lard. She said the preservative may be added just before the rendered lard is allowed to settle or has been poured into storage containers.

ers the non-fat solids of milk. Lime ought to be applied and mixed into the soil well ahead of planting time.

Alabama farmers now have 240 acres in timber to one in cotton.

Drip materials should be heavy enough to hang well.

Black smoke and hot chimney gases are signs of waste in your heating system. Such a system is a fire hazard and should be checked by a competent repairman.

YOUR PHARMACY

how Advertising helps you
BY CHARLES B. ROTH

Advertising Teaches
THE head of one of America's great universities sat on the same platform with the head of one of America's great advertising agencies. It was the advertising man's duty to introduce the educator, who he did, identifying him as one of the most eminent of educators and head of one of the world's greatest institutions of learning.

After acknowledging with graciousness this introduction, the college president said: "You, sir, are a greater educator than I or anyone else in my place. For advertising, which you represent so successfully, conducts the greatest school for adults—children, too, for that matter—in the world."

And then he pointed out that through advertising America had become a well-informed nation; not only in values or qualities of merchandise, for advertising long ago outwore such narrow boundaries, but in ideas and issues as well.

What he said is true. By that same token, the advertising pages of the newspaper ought to be merely a guide for those who have need to fill and

money to buy. "I really become an encyclopedia of current living. In these pages you can find practically anything you want."

Future historians, studying our current civilization, will learn more about us and how we lived from reading the ads than the news section of the papers. For each generation puts down its story in the things that it found essential to life and comfort.

When you pick up your newspaper, read the ads carefully, which is the habit of intelligent people, you may not think you are "going to school." But you are. It is a pleasant "school," one easy for you to attend, but its learning is no less important or lasting for that.

The late Will Rogers was wont to say so often it became his slogan that all he knew he read in the newspapers. He knew a good deal. And anyone who will read the newspapers, not alone what is printed in the news columns, but also in the ads will know a good deal also.

He will not know what is interesting to know, but he will know how and where he can spend his money to best advantage. Which is also important knowledge.

Get better tractor performance at lower cost with this outstanding tire value! You get extra tread depth at the center and shoulder! Ruler-straight lugs dig in deeper for powerful pull. Famous Goodyear open-center tread design wears evenly—means longer tire life. You get a lot more—for a lot less with the Sure-Grip D-15!

Set up or disassemble, folds into a flat package for easy storage. The heavy-duty experimental model shown here weighs 16 pounds, but the Chemical Corps, with FCDA funds, hopes to design "Protector," which takes only two minutes to a lighter moderately priced version. (FCDA Photo)

ARMY CONDUCTING INTERVIEW—
Teachers Needed Overseas

GAINESVILLE, Fla.—The Department of the Army will interview teachers for overseas employment at the University of Florida's Educational Placement

office Feb. 24-25. Dr. Robert O. Stripling, director of the office has announced.

The University has been designated as one of four colleges in the Southeast at which the Department of the Army will interview teachers to teach American children in schools in Japan, Okinawa, France and northern Italy during the 1956-57 year.

Several hundred teachers will be selected for the positions, of whom some 85 percent will be needed at the elementary level. Candidates for the positions must have the following qualifications: United States citizenship, bachelors between Jan. 1 1901 and Dec. 31, 1931; inclusive; a bachelor's degree from an accredited college or university &

Other interviewing centers in

Women who are married or who have dependents will not be considered and there are no arrangements for married couples who wish to be employed as a teaching team.

Applicants must be interviewed personally at an interview center. Teachers interested should write in advance for an interview appointment and for further information concerning data that should be brought to the interview. Inquiries should be addressed to Dr. Robert O. Stripling, Educational Placement Office, University of Florida, Gainesville, Fla.

Nothing without wings climbs like a '56 Chevrolet!

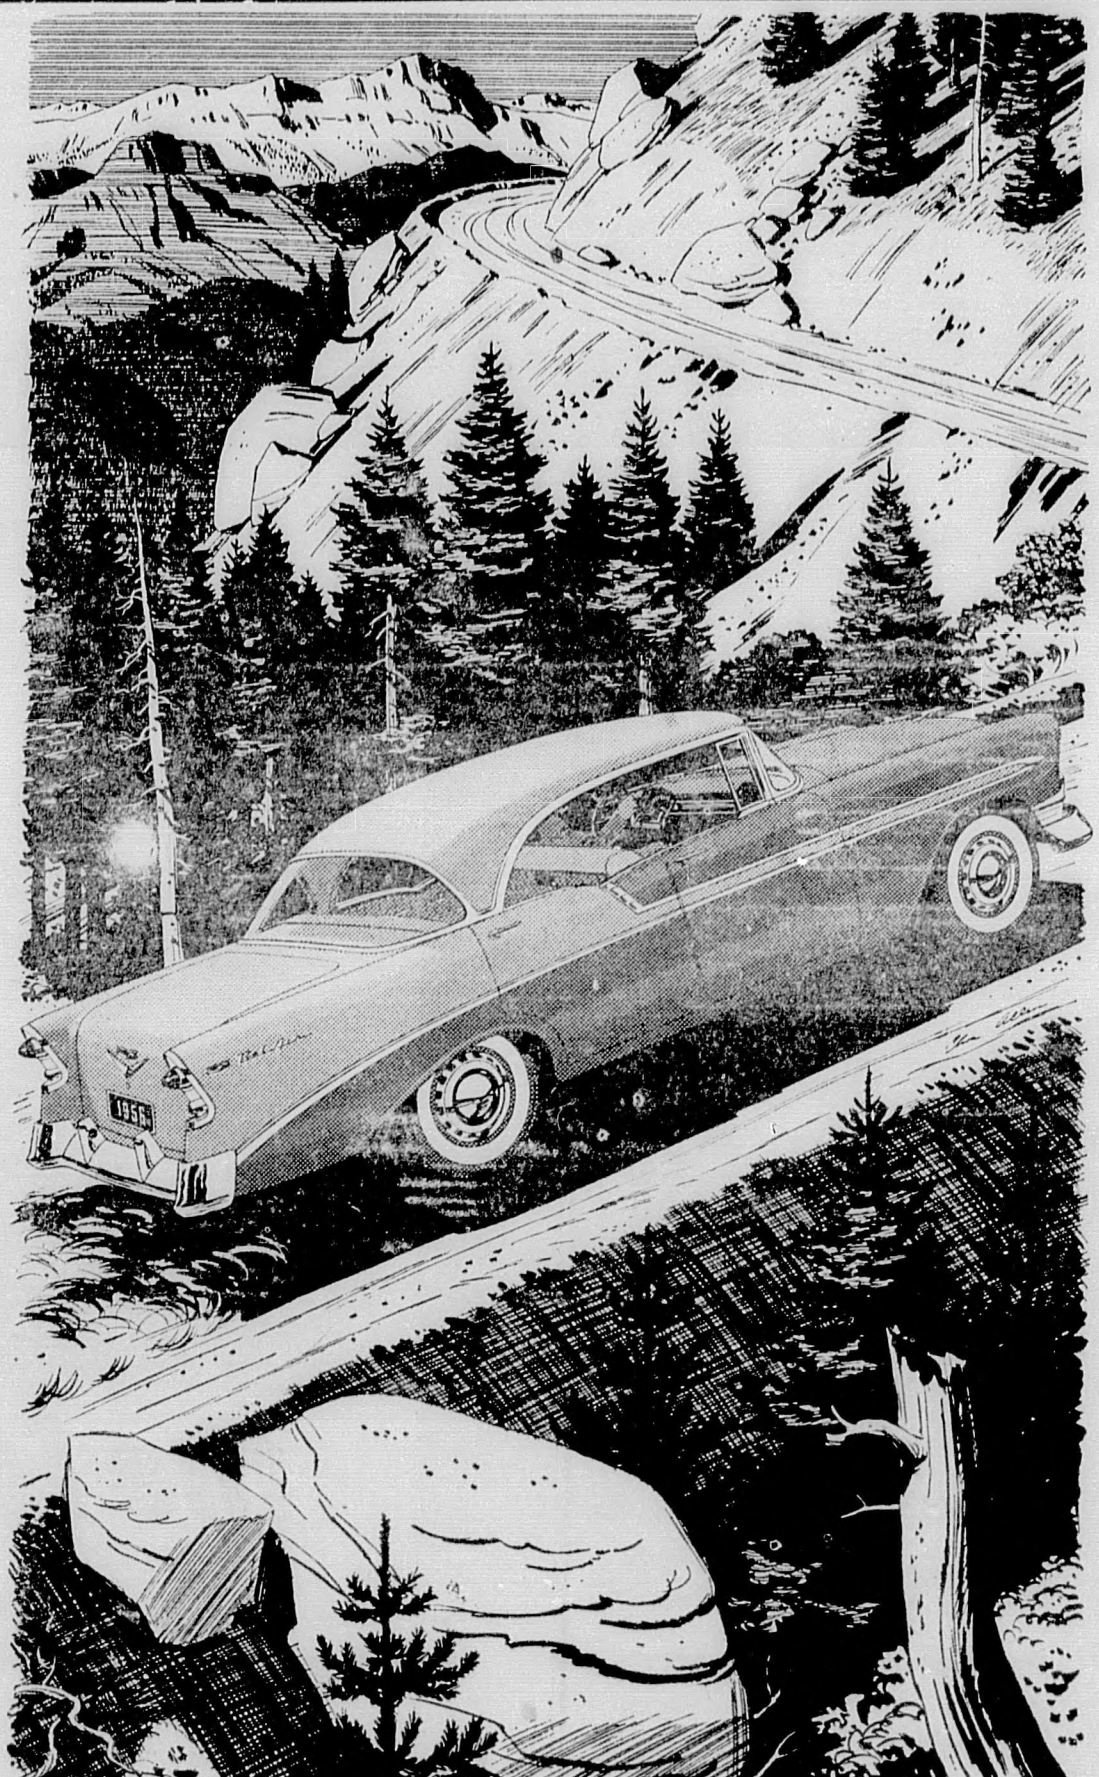

The new '56 Chevrolet handles hills like they aren't even there! Aim it up a steep grade . . . and you'll see why it's the Pikes Peak record breaker!

Ever level off a mountain with your foot? Nothing to it. Just point this new '56 Chevy uphill and ease down on the gas.

Up you go with a quiet hydraulic-hushed valve lifters now in all engines—V8 or 6—rush of power. This is the car, you know, that broke the Pikes Peak record. The car that conquered towering grades and vicious turns to prove its superior performance, handling ease and cornering ability.

These are built-in qualities that mean more driving pleasure and safety for you. Chevrolet also offers such safety features as seat belts, with or without shoulder harness, and instrument panel padding at extra cost.

You've a choice of 19 frisky new Chevrolets all with Fisher Body and with horsepower ranging up to a new high of 205. Drop in, when you have a chance, and drive the new record breaker!

W. Y. "Bud" Nobles
Has Mystery Farm
four persons identified the
Mystery Farm photo last week
as the home of W. Y. (Bud)
Nobles on Kingston Road.
Mr. Nobles came in to get his
picture but the editor was out
at the time. So the photo is being
held for Mr. Nobles to pick
the next time he comes to
Elba.

Correctly identifying his farm
were Ed Donaldson, Mrs. J. S.
Moore, Dewey Weeks and Mrs.
F. E. Meeks. Mrs. Meeks had her
name drawn out of the hat for
the free six-month subscription
to The Clipper.
Week before last Coleman
Redmon was the only person to
identify the farm of Mrs. Es-
telle Redmon so he has a six
month subscription due him.

Real Estate Transfers
The following real estate
transfers were recorded at the
Elba probate office:
John Clark and wife to Dept.
of Conservation
United States of America to
Joseph Banks and wife to W.
B. Hattaway Jr. and wife.
H. E. Edkins and wife to the
National Security Insurance Co.
J. D. and Ester Mae Morrow to
William S. and Frances Prior.
Mrs. Felix Rowe et al. to L.
B. Murphree and wife.
J. W. Ray and wife to Coffee
County (R. O. W.).
Mrs. Felix Coston Rowe et al.
to F. H. Murphree.

"TOUCHDOWN TWINS"
Habitual Martin Dyess and
Mack Wise, Elba's famous touch-
down twins, who have been
loated and awarded a most
every honor in "the book" have
clinched their claim to fame by
making the National High Men-
tion squad.
The prep school AA-American
selections are announced each
year by the Wigwag Wisemen
of America, an Oklahoma City,
Okla. organization. Seven teams
are named, then each state's
top players make the honorable
mention.

Dyess and Wise are among 28
from Alabama. No other Wires-
grass prep school stars were so
highly honored. Dyess was in-
cluded last year but was in-
eligible because he was not a sen-
ior.

LADIES READY-TO-WEAR MEN'S FURNISHINGS

PERFORMANCE
made it the
Largest Selling "8"
in the World...

the FORD V-8

Just look at these official registration figures
for the first 11 months—January
through November, 1955

FORD V-8	Car Sales	Ford Sales Leadership
Car C-V-8	654,076	607,356
Car P-V-8	262,670	978,872
Car C-Six	845,153	396,589
Car P-Six	834,540	907,202

People just naturally go for 8 cylinders
in the FORD package!
And to a world record extent!
Just think, in the first 11 months of
1955 alone, 344,486 more people bought
Ford V-8's than the two other low-
priced competitive eight-cylinder cars
of that year. The reason the Ford V-8 is
the largest selling eight-cylinder car in
the world is that more people like its

brand of performance—the kind that
comes with the car!
These people aren't amateurs in
judging engines. Nearly 24 years of
building Ford V-8's to supply their
demand is convincing proof of that.
And the Ford V-8 of today is the best
yet... by a country mile!
Smoother and quieter—you can
scarcely hear it, even with the hood up!

Safer—just ask the highway patrol
officer who drives one. He knows it
takes a Ford to catch a Ford!
And, for the very practical question
of durability—ask a Ford cab driver. He
knows how Fords take it day in and
day out. So, if it's performance that you want,
and wrapped like a gift—the '56
Ford V-8 is your baby.
Come in... try it today!

Dana Perdue Wins
Beauty Contest at
Mabel Brunson Party

One of the most enjoyable so-
cial events of the current sea-
son was the party given by Miss
Mabel Brunson at her home re-
cently. Valentine colors of red
and white were used in the de-
corations.

A feature of the evening was
a beauty contest where Dana
Perdue carried off the honors.
Contest winners were:
Most handsome boy—Dana Per-
due.

Best cook—Nettie Flournoy
Wittiest girl—Eunora Parris.
Smartest person—Mary Bell
Tatum.
Ugliest boy—Frances Parris and
Gordon Mathis (tie).
Most intellectual—Zadie Rowe
Best dressed boy—Frances Far-
ris and Gordon Mathis (tie).
Best dressed girl—Mary Bell
Tatum.
Best all around—Mary Ringsdorf.
Sherbet, cookies, nuts, candy
and coffee were served.

Golden Circle Sunday
School Class Meets

Members of the Golden Circle
Sunday School class met Thurs-
day night for their January
meeting in the home of Mrs.
Billie Oates with Mrs. Charles
Lindsey as joint hostess. Mrs.
Lindsey was joint hostess. Mrs.
James Clark presided.
During the social hour coffee
and cake were served to Mes-
sieurs Arthur Boutwell (teach-
er), Mae Cook, Pearlino Gathier,
Mary Hickman, Melvin Brozer,
J. Doug Kendrick, Zelma Tram-
mell, Hendrix Jeter Jr., Bon-
tau Rowe, Elmer Taylor, James
Clark and the hostesses.

Mr. & Mrs. Flournoy Whitman
and Mrs. Jess Whitman spent
last weekend at Winter Haven,
Fla.

Mrs. Oates Rowe of Enterprise
visited in the home of her son
Bonnie Rowe and family last
week.

Johnny Parris, Bobby Folsom
and Jerry Brown of Auburn
spent last weekend with their
parents here.
Rev. M. L. Seay spent the first
of the week in Mobile where he
attended the Evangelistic con-
ference at the First Baptist
church.

L. & Mrs. Charles Brown of
Vine Grove, Ky. arrived last
week for a visit with her
parents, Mr. & Mrs. Harold Eng-
lish.

Mr. & Mrs. Curby Bell of New Hope announce the en-
gagement of their daughter, Annie Will, to P. C. William J.
Bellard, son of Mr. & Mrs. William Bellard of Elba.
The bride-elect is a graduate of New Brighton High
School. The bridegroom-elect is a graduate of Elba High
School and is now serving with the U. S. Marine Corps at
Albany, Ga. The date of the marriage will be announced.

Eastern Star Planning
Visitors' Reception

Plans to entertain the worthy
Grand Officers of the state
chapter and for the school of
instruction Feb. 3 will be made
Thursday night at the regular
meeting of the Elba Chapter No.
323, Order of Eastern Star on
Thursday night, Jan. 26, at 7:30
o'clock.

Mrs. P. G. Mathis, worthy ma-
tron, requests all members be
present.

CIRCLE NO. 3
Circle No. 3 of the First Baptist
Church met at the home of
Mrs. Clyde Harris with 12 mem-
bers present. Devotional and
prayer were given by Mrs. Luke
McCollough. Prayer for the
Month of January was given by
Mrs. C. R. Blackmon. The mission
study, "World within a World,"
was taught by Mrs. P. S. Frank-
lin. The group was dismissed by
a prayer by Mrs. Sam Sawyer.
The hostess served a delicious
salad plate.

Mrs. J. D. Kendrick
Fetes 20th Century
Study Club Jan. 12

The Twentieth Century Study
Club met Jan. 12 in the home
of Mrs. J. Doug Kendrick with
Mrs. Jake Lubert Morrow and
Mrs. James DeVane as co-host-
esses. Pot plants and dainty
dried flower arrangements added
to the attractiveness of the
living and dining rooms.
Subject for the evening was
"Women of the Bible with
Mrs. Robert Marsh as leader."
The program consisted of a
Fine Arts report by Mrs. Robert
Stephens, "Abigail" was given
by Miss Gladys Clark, a guest
speaker for the club.

At the conclusion of the pro-
gram a delicious spaghetti sup-
per was served to Mesdames L.
A. Boyd, W. L. Brunson, Fred
Clark, Robert Cooper, Roy King,
Robert Marsh, Bill Martin, Wil-
lard Martin, James Martin, Ro-
bert Stephens, Bryan Taylor
and Miss Gladys Clark.

Mr. & Mrs. Claude Dorsey are
spending this week in Biloxi,
Miss and New Orleans where
they will attend a truck and
trailer convention.

Rev. J. M. Johnson of Grace-
ville spent Tuesday in the home
of his son, Dr. Leslie Johnson
and family.

Miss Joyce Sawyer of Andalusia
visited in the home of her
aunt Mrs. H. B. Larkins last
week.

Miss Martha Ham of Colum-
bus, Ga. spent the weekend with
her parents, Mr. & Mrs. Wesley
Ham.

Mr. & Mrs. Hoyt Williams (nee
Ella Wilkerson) of Union Springs
announce the birth of a son on
Jan. 19 when they have named
Hoyt Stephen.

SOIL
CONSERVATION

Burning crop residues from
the land is robbing the soil of
P. Nobles, Kinston, says that he
doesn't burn anything from the
land. Turning grass and stalks
is like putting money in the
bank. It pays off in increased
crop yields.

Crop residues add organic
matter to the soil. This helps to
condition the land for better
plant growth. It keeps the soil
open allowing more of the rain-
fall to soak into the ground.

Where all crop residues are
burned year after year, the soil
gets hard. There is more water
and wind erosion on this land.

Roy Barlow, Basin, is follow-
ing a conservation plan map in
putting his land to its best use.
He is assisted by the Soil Con-
servation Service in making the
plan. The use of each acre on
the farm is based on a soil sur-
vey of the land.

The soil survey is an inven-
tory of the land. It gives the
kind of soil, slope and degree of
erosion. From this information
the land is classified into
eight classes.

Class 1 and 2 is nearly level
land. It may need terracing and
water disposal systems. Cover
crops protect the land during the
winter. On this land Mr.
Barlow grows his row crops.

Classes 3 and 4 are too steep
for continuous cultivation. The
land is being planted to sod
crops and will be cultivated oc-
casionally.

Classes 5 and 6 are used for
pasture and tree production.
By following a soil map and cap-
ability, each acre on the farm
will be treated according to
its need for production and
protection. A soil capability map
is available through the Soil
Conservation Service office.

In interest to be and appear in
this Court on said day of hear-
ing to object to said report and
make such other defense in the
premises as to them may seem
meet and proper.

Witness my hand this 18th
day of January, 1956.
J. O. English, Judge of Pro-
bate.

Council Action on Police Force Stirs Controversy

Apparently lots of "discussion" took
place and tempers grew rather short at the
called council meeting held Monday night,
Jan. 16. At any rate, maneuvers grew so
bitter prior to the actual meeting that
Councilman Shelby Morrow had a letter of
resignation on the mayor's desk when the
city governing body did convene.

We can't report what actually hap-
pened at this meeting because we weren't there.
In the past, when the hour for a scheduled
meeting has been changed, the city hall has
very courteously let us know about it so we
could make arrangements to be present and
report the proceedings to our readers. Like-
wise, on unscheduled meetings, we usually
have been told about them. However, there
is no law that says this practice has to be
observed so we have nothing to say about
the council meeting last Monday night ex-
cept that we weren't present because we did
not know it was being held. Whether we
were purposely excluded or just forgotten,
we have no way of determining.

At any rate, Tuesday morning it didn't
take long for a garbled version of the coun-
cil's actions to get circulated around town.
While men present at the meeting didn't
agree on all reports, they did assert that
D. C. (Cool) Rhodes was appointed a pa-
trolman and not acting chief. Public re-
action to this was mixed. Our personal re-
lationship with Mr. Rhodes has always been

very pleasant. In the army he would have
been called a good "field soldier" because
he is agreeable and easy to get along with
even when the going gets rough.

Words spoken at the meeting and man-
euvering prior to it have created a wide rift
in the council which we doubt will be heal-
ed before municipal elections early this fall.
Whether Shelby Morrow will hold to his re-
signation after the council turned it down
remains to be seen.

The whole affair has crystallized our
thinking on one point, though. Heretofore,
Mayor Mullins used to bring up certain
items of business and call them "off the
record." We'd go along with the idea figur-
ing that harmonious relations were more
important than a little bit of sensationalism.

An example is the pension voted for
former Chief of Police J. W. Parker at the
regular council meeting this month. It is
in the minutes that \$150 per month was
approved until Oct. 1. When a disagreement
broke out among the councilmen after the
meeting as to the amount, Mayor Mullins
asked us to withhold printing the actual
amount until Oct. 1. When a disagreement
broke out among the councilmen after the
meeting as to the amount, Mayor Mullins
asked us to withhold printing the actual
amount until Oct. 1.

For the council to change it. We did this
for the sake of harmony but we won't do it any
more. Because it is so easy to forget notifi-
cations of council meetings, we are going
to lay out in the open the happenings of all
sessions we do get to attend.

Folsom Gets Full Credit for New Industry in State
In Sunday's Montgomery Advertiser,
Bob Ingram, the paper's capital correspon-
dent, wrote:

Gov. Folsom to date has not received
due credit for the part he played in luring
the tremendous industrial expansion pro-
gram in the Tennessee Valley area by Rey-
nolds Aluminum and Ford Motor Co.

Some two weeks ago in a joint state-
ment, the two firms announced an expan-
sion program in the Tri-Cities area (Flor-
ence, Sheffield and Tusculum), of \$140
million—the biggest single industry chart
in Alabama's history.

As now proposed, Ford is to build a
new plant to manufacture aluminum parts
for automobiles, and Reynolds will expand
its existing facilities to meet the Ford de-
mands for aluminum.

The expansion of Reynolds and the new
Ford plant are expected to provide employ-
ment for approximately 2,000 people, with
salaries to average at a minimum of \$250
per month. This means a total annual pay-
roll of \$6 million.

Folsom has never told the behind-the-
scenes developments which brought the
plants to Alabama, but this much is known
—in a whirlwind campaign of about two
weeks Alabama was able to snatch the
plants out from under the nose of another
state.

About a month ago Louis Reynolds met
with Folsom in the governor's office and
told him without hesitation that the plants
were to be built in the vicinity of Louisi-
ville, Ky.

Marion, Alabama Has What It Takes
A contract for location of a lingerie
plant in Marion, Alabama was concluded
Jan. 16 and mailed to the town from New
York for final signatures.

The contract successfully climaxes 10
years work by Marion community leaders
for a sizeable industrial payroll for the col-
lege town in a predominantly agricultural area.

After years of work, the Marion In-
dustrial Committee of their Chamber of
Commerce was rewarded by the location
of a new plant. Initially, the plant will
provide jobs for about 200 persons. At peak
operation, employment will total some 250.

We are just mentioning this because it
is more typical of towns getting industry
than usually hits the headlines. Normally
full play is given to a plant moving into a
town, the important impact it will have on
the community and all its significance. Lit-
tle is written of the many industrial in-
quiries answered through the years, disappoint-
ments when the town was judged "second
best," and the grind of securing informa-
tion for a name on a letter and then never
hearing from that name again.

But all of these seemingly futile move-

We'll Be There, Roy
Last week we got an invitation from
Roy Shoffner, columnist for the Ledger,
to bring The Clipper staff to the first home
game of the Enterprise Wildcats next foot-
ball season when they dedicate their new
stadium (!!!). Those explanation marks are
used to replace the (?) C. B. McDowell
used in a story of the 1955 meeting of the
Wildcats and Tigers in what our sister city
had been using for a stadium (?).

If that (?) aided in stinging folks in
Enterprise into action, it was well worth
while. We also want folks over there to
know that while we might sting them oc-
asionally, when it comes time to dig in and

help out we are also there. The Clipper was
among those donating to the Enterprise
Lions Club on their fund-raising project
for the stadium (!!!).

All we ask of the Enterprise Wildcats
next season in their opener is to whale the
tar out of their opponents. (It can't be
used in a story of the 1955 meeting of the
Wildcats on the local field, Mr. McDowell
might not be able to accept this kind invita-
tion because he will probably be covering an El-
ba game. However, the writer will be there
even if a press box is not included in the
stadium (!!!) plans.

THE ELBA CLIPPER

Household Hints

Pin feathers will come out of
game birds quite easily after the
feathers have been soaked for a
time in very salty water. Re-
move the large feathers before

dunking the birds and be sure to
wash in clear water before cook-
ing.

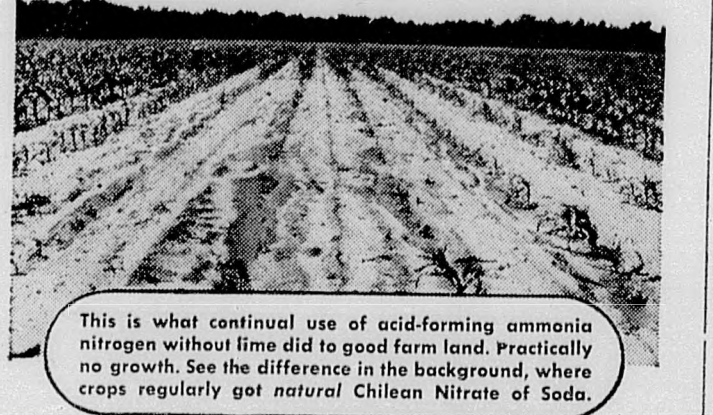

Spraying with an insecticide
is excellent way to clean bed
springs. Most of the lint will be
puffed from the springs, and
the spray won't rust the metal.

All but cotton fabrics should be
covered with a pressing cloth
when ironed on the right side.
Even cotton needs this protec-
tion of its a dark shade which
will show marks.

Are All Cold
Remedies Alike?
No! For example, 666 is the wild-
caty medicine, which combines 4
of the most effective, widely-pre-
scribed drugs known, to relieve all
cold miseries sooner, 666 is more
powerful and gives positive, dramatic,
rapid relief from miseries of all kinds
of colds. That's why 666 is un-
surpassed in effectiveness. Try it.
No other cold remedy
can match 666 liquid.
666 Cold Tablets.

EXTRA GOOD
because it's NATURAL

This is what continual use of acid-forming ammonia
nitrogen without lime did to good farm land. Practically
no growth. See the difference in the background, where
crops regularly got natural Chilean Nitrate of Soda.

CHILEAN NITRATE—WORLD'S ONLY NATURAL NITRATE
A natural fertilizer is an extra good fertilizer. Not just for crops,
but also for the land; not only for today, but for the years ahead.
And Chilean Nitrate is the only natural combination of nitrate
nitrogen, sodium and minor elements.

Natural Chilean works fast. Small grain yields depend upon
the supply of available nitrogen when spring growth begins. A
Chilean top-dressing supplies life-giving plant food at the moment
of greatest need.

Natural Chilean boosts yields. Its nitrogen is 100 per cent
nitrate nitrogen, ready for the plant immediately after applica-
tion. A top-dressing of 300 pounds per acre promotes stouling, rapid development,
early maturity.

Natural Chilean fights acidity. Every
ton contains sodium equal to 650 pounds
of acid-destroying commercial limestone.
Sodium substitutes for potash and calcium,
increases available phosphate supply.

Natural Chilean benefits crop and
soil. It corrects acidity, improves potash,
phosphate, calcium, magnesium and minor
element availabilities. Chilean Soda is one
of the most efficient and economical ni-
trogen fertilizers for top-dressing and side-
dressing. Ask for Bulldog Soda. Look for
the Bulldog on the bag.

From our
EARLY FILES

The Chamber of Commerce was a visitor and asked the as-
sistance of the body in securing
the right-of-way on the Elba-
Kinston highway project. He
said some difficulty had been
encountered and it is his desire
to obtain the right-of-way with
as little trouble as possible. A
committee was appointed to as-
sist Mr. Young. Charles Rowe
reported for the committee
which has been at work on the
airport project. A site for the

airfield has been inspected by
Capt. Mahon of the Aeronauti-
cal Division and through the
City officials, arrangements
have been made for the rental
of the property on the J. H.
Brown farm on Opp highway.

A lengthy discussion was held
in regard to the Elba Merchants
Exchange. All those partici-
pating heartily agreed that the
manager of the Exchange should
have more remuneration for his
services, especially since the
work of the Exchange has grown
to such large proportions. Mr.
Brunson has found it necessary
to hire additional help to handle
the greatly increased business
during the past few weeks.

Prof. J. C. Dixon was heartily
applauded when he made a
statement that all indications
were that the Elba school
would continue for the full nine
months term.

Miss Emma Margaret Cooper
has been ill with scarlet
fever has sufficiently recovered
to be able to return to school.
—23 Years Ago—

Several complaints have been
made recently that cars parked
around the square have been
"borrowed" without the owner's
knowledge and used for one pur-
pose or another. The practice
is said to be especially preva-
lent while the owners are at-
tending the picture show.

D. J. Lubert and J. F. Brunson
of the A. W. Hobart, J. C.
Robbins, C. C. Bryan, L. F.
Young and F. H. Tibot were
guests of the Chamber.

—22 Years Ago—
A large crowd assembled at
the Peace landing field Friday
afternoon to witness the plane
and motorcycle stunts. All went
well until about 5 o'clock when
a broken crank shaft caused the
motor to go dead when the
plane was flying over the coun-
ty jail. Hundreds of people who
were watching were horrified to
hear and see the accident. Fear-
ing a tragedy, however, the pil-
ot, Joe Tech, lived up to his
reputation as an expert by skill-
fully manipulating the plane in
such a way that it came to rest
in a plowed field, south of Pea-
River.

—22 Years Ago—
C. J. Meek Jr. of Basin com-
munity trustees killing a dove
last Thursday which had mis-
guided quite a long distance. On
one of the bird's legs was a
Grand bearing the address
Kingsville, Ontario, Box 48. The
figures 23 were also stamped on
the band.

New Chevrolet Task-Force Trucks for '56!

Now there are more reasons than ever why
anything less is an old-fashioned truck!

Fast Facts About New
56 Task-Force Trucks

HIGH-LEVEL VENTILA-
TION AND CONCEALED
SAFETY STEPS!
STROKE V8 FOR EVERY
MODEL!
MORE POWERFUL
VALVE-IN-HEAD SIXES!
TUBELESS TIRES,
STANDARD ON
ALL MODELS!
GREAT NEW FIVE-
SPEED SYNCHRO-MESH
TRANSMISSION!
FRESH, FUNCTIONAL
WORK, STUNNING
*V8 standard in L.C.F. models, an extra-cost
option in all other models. *Optional at extra cost
in a wide range of models.

An automatic transmission for every series! A super-efficient, short-stroke
V8 for every model! Higher powered, higher compression 6's! New,
higher capacity! Come in and see all the new things that'll whittle down
hauling time and slice your costs!

New '56 Chevrolet trucks offer still more
modern Task-Force advantages!
They bring you new power—a short-
stroke V8* for every model, and higher
compression 6's that pack a bigger power
punch than ever!

And you can haul bigger loads! These
new Chevrolet trucks are rated up to a
hefty 19,500-lb. G.V.W.
Then there's an automatic transmission
for every series—a wider range of Hydra-
matic* models, plus Powermatic*, a new
six-speed heavy-duty automatic.

Come on in soon, and look 'em over!

Dorsey Bros. Chevrolet Inc.

Thanks A Million

This is to advise that I have recently sold my entire interest in the Elba Jitney Jungle to Mr. & Mrs. W. F. Head. This move makes the Jitney Jungle COMPLETELY home-owned and home-operated, keeping Elba dollars in Elba. Mr. & Mrs. Head will constantly strive to make Jitney Jungle a better place to shop. They will remain in the same location.

May I take this means to say that it has been a pleasure serving you these past ten years and I am deeply grateful for your patronage.

We know of no claim against our partnership but if there exists any claims of any nature, this is your notice to come forward and make them known before March 1, 1956.

Retail Sales Over \$15 Million

Retail sales in 1954 of 272 stores in Coffee County totaled \$15,431,000, according to preliminary 1954 Census of Business figures announced by the Bureau of the Census, Dept. of Commerce. This was an increase of 50.4 percent over sales in 1948 of 309 stores at \$10,261,000.

Stores with payroll in 1954 numbered 136, had 536 paid employees in November 1954, reported payroll of \$1,103,000 and accounted for sales of \$12,753,000. Proprietors of unincorporated businesses number 294.

The number of stores and their 1954 sales, grouped by major kinds of business, were:

KIND NO. SALES
Food Stores 94 \$3,879,500
Eating 19 414,000
Gen'l. Merch. 31 1,370,000
Apparel 22 859,000

Jim Dewberry's Car Destroyed by Fire

An automobile belonging to Jim Dewberry, driven by his brother, Bill Dewberry, caught fire and burned Monday night about 8 o'clock on the Opp highway west of Elba.

The fire department made a run to the scene but the blaze had gained such headway when they arrived that all they could do was cool off the burning car which was a total loss. Cause of the blaze has not been determined.

Mr. & Mrs. Wayland Dabose and children of Bristol, Fla. and Mr. & Mrs. Dee Kennedy and Dee Jr. of Mobile.

Dr. & Mrs. Leslie Johnson and sons, Frank, Paul and Leslie, visited Mrs. Johnson's parents, Mr. & Mrs. J. F. Richardson in Arion Sunday.

Mrs. Price Ringo had as her guests over the weekend, Mr. & Mrs. Donald Hammond of Dothan and Mr. & Mrs. Edna Morgan of Enterprise.

Dr. & Mrs. J. M. Kimmey spent Thursday and Friday of last week in Birmingham where he attended a medical clinic.

Mr. & Mrs. J. R. Oggs of Birmingham visited Mr. & Mrs. Billie Oggs Saturday.

STAR CHIEF TWO-DOOR CATALINA

The car says 60 and the price won't stop you!

Puts more Power where it Counts!

THE SECRET OF PONTIAC'S BLAZING GO

IS IN THE TEAMWORK OF TWO ENGINEERING MASTERPIECES

They were born to go together, these two—the mighty Strato-Streak V-8 engine and the revolutionary new Strato-Flight Hydra-Matic drive.

You can feel the difference . . . actually feel it. Feel it in the response—quick as the flick of an eyelash. Feel it in the tremendous thrust—oil smooth and effortless. And feel it in that breath-taking, almost unbelievable extra burst for the split-second sprint to safety past slow-moving traffic in your path.

Here is power and go you dream about . . . but this time it's real, because you're piloting the most modern power combination on the road.

A new engine: the brilliant Strato-Streak V-8 with almost 317 cubic inches of displacement for barrel-chested deep breathing . . . with a super-

efficient 8.9 to 1 compression ratio to squeeze the last ounce of go out of every drop of gas . . . with high torque for sizzling take-off . . . with a blazing 227 horsepower!

A new transmission: an engineering masterpiece specifically designed to utilize the full thrust of that great engine . . . with gears for instant response and crisp, positive acceleration . . . and an amazing liquid-link coupling for a silky-smooth flow of power to the rear wheels.

Test drive this fabulous '56 Pontiac tomorrow—we promise you, you're in for a thrill!

And another thrill is waiting for you when you hear the price! See your Pontiac dealer soon—make it a special point to do it—and get ready for two wonderful discoveries!

*An extra-cost option.

You can actually buy a big, glamorous Pontiac 860 for less than you would pay for 44 models of the low-priced 'three!
